Title 37, Code of Federal Regulations, Section 1.362(d), effective Nov. 1, 1984, provides that maintenance fees may be paid without surcharge for a six-month period beginning 3, 7, and 11 years after the date of issue of patents based on applications filed on or after Dec. 12, 1980. An additional six-month grace period is provided by 35 U.S.C. 41(b) and 37 CFR 1.362(e) for payment of the maintenance fee with the surcharge set forth in 37 CFR 1.20(k) or (l), as amended effective Oct. 5, 1985. If the maintenance fee is not paid in a patent requiring such payment the patent will expire on the 4th, 8th or 12th anniversary of the grant.

Attention is drawn to the patents which were issued on May 29, 1984, for which maintenance fees due at 3 years and six months may now be paid. The patents have patent numbers within the following ranges:

Notice of Expiration of Patents Due to Failure to Pay Maintenance Fees

35 U.S.C. 41 and 37 CFR 1.362(g) provide that if the required maintenance fee and any applicable surcharge are not paid in a patent requiring such payment, the patent will expire at the end of the 4th, 8th, or 12th anniversary of the grant of the patent depending on the first maintenance fee which was not paid.

COMPLAINT
Case No. 718804

FILED
Sep 30 1986
GARY J. BARCZAK
Clerk of Courts

The State of Wisconsin, by its attorneys, acting on behalf of the Wisconsin Department of Justice, brings this action against the defendants herein and complains and alleges as follows:

JURISDICTION

1. This claim for relief is filed pursuant to sec. 100.18(11)(d), Stats., to prevent and restrain violations of sec. 100.18(1), Stats., and to obtain restoration of pecuniary losses suffered by Wisconsin citizens as a result thereof, and pursuant to sec. 100.26(4), Stats., to recover civil forfeitures for violations of sec. 100.18(1), Stats.

DEFENDANTS

2. Defendant American Patent Research Corp., Inc., is a Washington, D.C. corporation, and is located at 2155 Queens Chapel Rd., NE., Washington, D.C., 20018. Upon information and belief, defendant maintains additional offices in other parts of the country.

3. Defendant Richard Waxman, an adult male, is the Vice President, Treasurer and Secretary of American Patent Research Corp., Inc. In that capacity, he has taken part in the formulation, direction and control of the acts and practices of said business operation.

4. Defendant Diane Waxman, an adult female, is the president of American Patent Research Corp., Inc. In that capacity, she has taken part in the formulation, direction and control of the acts and practices of said business operation.

5. Defendant Robert Waxman, an adult male, is a director and an agent of American Patent Research Corp., Inc. In that capacity, he has taken part in the formulation, direction and control of the acts and practices of said business operation.

6. Whenever in this complaint reference is made to any action of any of the defendants, or to any action of any one of the agents, employees, salesmen, or representatives of any of the defendants, such allegation shall be deemed to mean that such action was taken with the knowledge and consent of each of the defendants and was taken pursuant to a common scheme or plan.

7. Plaintiff is informed and believes that other individuals, companies or corporations have participated or are participating in the illegal practices or activities complained of herein. Such persons, companies or corporations may be joined in this action when their identity and the degree of their participation in the practices and activities have been ascertained.

NATURE OF DEFENDANTS' BUSINESS

8. The defendants have been engaged in an operation throughout the United States, including the State of Wisconsin and the County of Milwaukee, whereby consumers are solicited to submit invention ideas to defendants, along with a prepaid fee, for the purpose of having defendants conduct a marketing feasibility study and, for an additional fee, develop and execute a marketing program.

9. Beginning at an exact date unknown, but at least since 1984, defendants have operated their solicitation by initial contact through television and magazine advertisements reaching citizens throughout the State of Wisconsin.

10. When a potential customer responds to some form of defendants' advertisements, the customer receives an informational packet describing defendants' operation and services. The potential customer is requested to provide defendants with a description of his or her invention. If the customer does not mail in the information within a short period of time, he or she is contacted by telephone by an agent of the defendants to inquire when response will be made. Consumers are often told they must respond quickly because a review board meeting is scheduled within a few days.

If a consumer sends in the initial description, he/she is thereafter contacted by telephone by a sales agent for the defendant corporation. The customer is told that the invention looks good, that a preliminary search shows nothing like it on the market, and defendants are ready to do a patent search and market research on it. The fee for such a review is approximately $750.00. Often, this is the first time the consumer is made aware that a fee is involved.

Thereafter, the consumer is provided with a marketing analysis of his/her invention and with documentation respecting its patenting and/or patentability. The consumer is thereupon solicited to prepay an additional fee to defendants for the purpose of having defendants carry through with a marketing program for the consumer's invention. Defendants and the consumer enter into an agreement, a copy of which is attached hereto as Exhibit A. This prepaid fee for Wisconsin consumers has ranged from $4,725.00 to at least $5,810.00.

MISREPRESENTATION ALLEGED

11. In the course of soliciting Wisconsin residents to purchase their services, the defendants, through written representation in their sales literature, and oral representations made by agents and representatives, have made untrue, deceptive and misleading representations and statements which are in violation of sec. 100.18(1), Stats., and are enjoinable pursuant to sec. 100.18(11)(d), Stats., such as the following:

a. That each idea/invention submitted to them for evaluation is innovative and marketable; in truth and in fact, few if any of the ideas/inventions submitted are patentable or marketable.

b. That clients will realize large financial gains from their ideas/inventions and contracting with defendants will allow them to get started doing so. In truth and in fact, few if any clients realize any financial gain from their association with defendants, but rather are financially injured, at least to the extent of their investment with defendants.

c. That defendants will perform a patent search for the client and, if the idea/invention is patentable, will obtain a patent which protects it. In truth and in fact, the procedure utilized by defendants is not a bonafide patent search, nor is a protective patent obtained through defendants' efforts.

d. That defendants have successfully marketed ideas/inventions pictured in their promotional literature. In truth and in fact, few if any ideas/inventions have been successfully marketed by defendants.

e. That the idea/invention of each client can be successfully marketed. In truth and in fact, defendants' patent/production/marketing feasibility studies, if performed at all, are totally inadequate to provide the client with useful information.

f. That the invention of a potential client has been presented to the defendant company's Board of Directors, whose reaction is so positive that the Board has expressed an eagerness to begin work on it immediately, as soon as the client forwards the contract fee, or even to invest a large amount of the companys' own money in marketing the idea/invention. In truth and fact, little, if any, of the defendants' own money or company assets are utilized in production or marketing of a client's idea/invention.

g. That one or more of defendant corporation's agents have become millionaires by investing in ideas/inventions submitted by clients. In truth and in fact, little if any such investment has been made, much less profit realized from such investment. Rather, profits accrue to defendants through contract fees paid by clients for misrepresented services.

h. That fees for certain clients are reduced because their idea is so exciting and potentially marketable. In truth and in fact, fees are reduced in proportion to the difficulty of soliciting a potential client to enter into a contract with defendants.

i. Defendants often fail to disclose the amount of the fee for providing marketing services until after the

consumer has already invested in the initial analysis. If the existence of a second fee is disclosed, consumers are often told not to worry about the amount; in truth and in fact, when the consumer receives a contract, its cost ranges from approximately $2,000.00 to at least $5,465.00.

j. That their marketing services will help consumers sell their product and reap huge profits. In truth and in fact, the contract, a copy of which is attached as Exhibit A, basically requires only that defendants provide a list of potential manufactures, which is often out-of-date or inappropriate, and a set of stamped mail-outs, which the consumer himself must forward to manufacturers. The consumer rarely receives any response whatsoever to this type of mailing; if any response is received, defendants often fail to follow-up on the response for many months. Services orally offered to the consumer, especially those regarding follow-ups, are made discretionary by the terms of the contract. (see, e.g., paragraph o of Exhibit A.)

k. That defendants maintain a close working relationship with their clients; in truth and in fact, once the consumer has paid his full fee and entered into the marketing contract with defendants, calls from clients are often no longer accepted and written inquiries receive a form letter response. Inquiries are discouraged by the use of a written timetable which sets lengthy time lapses between each activity defendants are supposed to perform. As a result, the consumer has invested much time and money before he becomes aware that the contract is not resulting in the success he has been led to expect by defendants prior to entering into the contract.

l. That consumers can deduct the expense of the contract on their tax returns as a product development investment deduction. In truth and in fact, the only deduction which may be available is that which can be taken after a period of time for business loss write-offs. This type of advice presupposes a failure to profit from the investment.

DEMAND FOR RELIEF

WHEREFORE, the State of Wisconsin demands judgment against the defendants as follows:

1. That defendants, their successors, assignees and transferees, their agents, employees, representatives and all persons acting or claiming to be acting on their behalf, be perpetually enjoined and restrained, pursuant to sec. 100.18(11)(d), Stats., from conducting business operations in Wisconsin in violation of sec. 100.18(1), Stats., in the manner alleged herein.

2. That pursuant to sec. 100.18(11)(d), Stats., the court order the defendants to restore any pecuniary loss suffered by any person because of the defendants' acts and practices, involved in this action, in violation of sec. 100.18(1), Stats.

3. That the court order a civil forfeiture to the State of Wisconsin in the amount of not less than $50.00 nor more than $200.00 against each of the defendants for each adjudged violation of sec. 100.18 (1), Stats., by each of said defendants, pursuant to sec. 100.26(4), Stats., together with a penalty assessment of fifteen percent (15%), pursuant to sec. 165.87, Stats., for each such violation.

4. For such other and further relief as the court deems just and equitable.

5. For the costs and disbursements of this action.

Dated this 29th day of Sept. 1986.

b. If it appears that the violation was inadvertent or otherwise unintentional and the involved person immediately conforms to the regulations, no further action will be taken.

c. If the violation appears to be intentional or if the person involved refuses to comply with a verbal request from a PTO employee or continues to violate the regulations after being requested to comply, the person shall be required to surrender his or her User Pass to the PTO. A written report of each violation and the User Pass will be submitted to the Assistant Commissioner for Administration for decision. Reference Collections of U.S. Patents Available for Public Use in Patent Depository Libraries

The following libraries, designated as Patent Depository Libraries, receive current issues of U.S. Patents and maintain collections of earlier issued patents. The scope of these collections varies from library to library, ranging from patents of only recent years to all or most of the patents issued since 1790.

These patent collections are open to public use and each of the Patent Depository Libraries, in addition, offers the publications of the U.S. Patent Classification System (e.g. The Manual of Classification, Index to the U.S. Patent Classification, Classification Definitions, etc.) and provides technical staff assistance in their use to aid the public in gaining effective access to information contained in patents. With one exception, as noted in the table following, the collections are organized in patent number sequence.

Facilities for making paper copies from either microfilm in reader-printers or from the bound volumes in paper-to-paper copies are generally provided for a fee.

Owing to variations in the scope of patent collections among the Patent Depository Libraries and in their hours of service to the public, anyone contemplating use of the patents at a particular library is advised to contact that library, in advance, about its collection and hours, so as to avert possible inconvenience.

MARKS PUBLISHED FOR OPPOSITION

The following marks are published in compliance with section 12(a) of the Trademark Act of 1946. Applications for the registration of marks in more than one class have been filed as provided in section 30 of said act as amended by Public Law 772, 87th Congress, approved Oct. 9, 1962, 76 Stat. 769. SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
